

With the completion of the Auckland motorway system the North West is transforming from a semi-rural area on the edge of Auckland - to a major hub providing new jobs, industry and opportunity for residents in the area.

New Zealand Retail Property Group Limited, who built and manage the Westgate Shopping Centre are working with Auckland Council to expand Westgate as part of the transformation going on throughout the North West. The expanded Westgate will incorporate a new library and other community services, a main street with an integrated retail and office mix, parklands and an entertainment precinct. Westgate will be a vibrant place where people can live, work, play and shop.

Earthworks are underway and construction will begin next year with completion scheduled for Spring 2013.

Westgate

The
Future

The growth of Westgate into a fully fledged town is finally underway. The town centre, entertainment precinct, parklands and superior retail and office mix will be the heart of the North West.
